Summary

MERN Stack developer with a passion for building dynamic, scalable web applications. Strong in both frontend and backend development, with hands-on experience in building real-world projects. Thrives in collaborative environments and continuously adapts to new technologies.

Skills

Technical Skills:

- Frontend: React.js, HTML5, CSS3, Bootstrap,Tailwind
- Backend: Node.js, Express.js, MongoDB
- Others: Git & GitHub, Postman, JWT Authentication, RESTful APIs

Project Experience

Car Rental Booking System

Developed a full-stack Car Rental web application using the MERN stack with Redux and Tailwind CSS. Built secure authentication, booking system, car listings, user profiles, and an admin panel, handling complete frontend, backend, and database operations with a responsive UI.

Zenvo Cart

Build a complete frontend of the Zenvo Cart website using React.js, HTML, CSS, and Bootstrap/Tailwind, showcasing curated home essentials (bedsheets, pillows, blankets, towels) with a responsive layout and improved user interaction and shopping experience
